EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph Mallon on 8/3/04.

The application has been amended as follows:

IN THE SPECIFICATION:

In the 11th line of paragraph 0001, --(now U.S. Patent 6,716,751)-- has been inserted after 10/074,149".

In the 8th line of paragraph 0054, --and co-owned-- has been inserted after "co-pending".

In the 7th line of paragraph 0065, --and co-owned-- has been inserted after "co-pending".

IN THE CLAIMS:

In claim 1, last line, -- under said substantially mass transport limited conditions-- has been inserted after the word "substrate".

In claim 8, line 1, --Si-containing film is an-- has been inserted prior to the word "amorphous".

In claim 8, line 2, "has" has been changed to --having--.

In claim 9, line 1, "--Si-containing film is an--" has been inserted prior to the word "amorphous".

In claim 9, line 2, "has" has been changed to --having--.

In claim 10, line 1, "of" has been deleted.

In claim 11, line 1, "of" has been deleted.

Non-elected claims 16-73 have been canceled.

The following is an examiner's statement of reasons for allowance: The references cited herewith are considered to be the closest prior art. These references disclose processes wherein a trisilane gas precursor is used to deposit Si-containing films. These references, however, do not provide enough information to ascertain whether or not deposition is performed under "substantially mass transport limited conditions" or alternatively provide evidence that deposition is performed under reaction rate limited conditions (i.e., figure 1 of JP 05-062911). Furthermore, the prior art provides no teaching or suggestion that would motivate one of ordinary skill in the art to apply mass transport limited conditions to the deposition processes shown in the cited references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy H Meeks whose telephone number is 571-272-1423. The examiner can normally be reached on Mon, Wed, Thur 6-6:30, Fri 6-10.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Shrive Beck can be reached on 571-272-1415. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
